	Heifers were a please to handle. They had to come through the draft and weigh box to be drafted and assessed twice and flowed very well both times. Please note the animals noted as slightly stiry were only assessed that way when they were isolated or pressure was applied either in the rush or in a yard, they quickly steeled once released.

Assessor Comments	Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned Heifers. They stand on very good bone and show fantastic length and weight for age. They have a live weight range 300kg to 418kg and an average weight of 329.2kg after a 3% delivery adjustment, please note there is only 2 Heifers in this lot over 400kg the balance are from 300kg to 400kg. These heifers would be ideally suited to replacement breeds or grow out to target the feeder or slaughter markets. They have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Buyers, note that a 3% delivery adjustment as been used as the cattle had to come around twice, once to be drafted into their lines and again to be assessed after already being in the yards for 4 hours off feed and water. Please note the vendor has another 2 deck line of weaned heifers and two lines of weaned steers in the same sale.
