Assessor Comments	A quality line of 25 Angus x heifers bred on Sandy Camp, Quambone. These heifers are sired by TeMania & Pharo Angus bulls, bred from the last of there coloured cows as they transition into Angus. They are out of large-frame cows, giving them plenty of stretch and growth potential along with plenty of shape. At 10–11 months of age, these young females present an excellent opportunity for buyers looking for quiet, well-bred cattle to take on and suit a wide range of programs. They have been well handled, are very quiet in the yards and paddock. A genuine offering of future breeders or feeders that will fit seamlessly into any operation.
