Comment on Fat Score 1 Cattle	These cattle had a tough start but have improved significantly since being on agistment. As they continue to grow, they still lack fat cover, though they have enough energy and strength to travel long distances, provided spelling is managed appropriately. Fit-to-Load standards will be followed at delivery

	Very well handled cattle, we drafted 500 head 4 ways in an hour and a half then weighed and assessed 110 head in an hour. Very well educated cattle.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	Angus/Hereford and Composite steers. These steers present in store condition and are ready to perform given the right opportunity. They had a tough start but have improved significantly since going on agistment at Longreach in May. The cattle are very well handled, quiet to work in the yards, and flowed smoothly through the race and crush. All steers were weighed and assessed, with a 20-head sample mouthed showing milk teeth. A 114kg spread however visually they look very even. Across the mob, 6 head were noted with white or blue eye, and 20 with rub marks. These cattle represent an excellent chance to secure well-bred steers with strong genetic backing. Vendor offers 266 Hereford/Composite cross steers and 80 heifers in the same sale - please note delivery comments.
