Assessor Comments	A very good line of vendor bred feeder heifers that will make exceptional bullocks. These heifers posses quality, frame and softness along with good weight for age that would see them suit most "feed on" buyers. 5 of these heifers have been spayed as weaners with the remainder treated with PG approximately 2 months ago, have not been near a bull since and were preg tested "non detectable" by the vendor at assessment. All 17 of these heifers were mouthed 0-2 teeth at assessment. Please note Vendor also has 8 steers in same sale and bought together would make up a neat deck, last 2 photos are of entire mob. Cattle will be guaranteed clear of the certified on property dip for buyers heading to clean areas.
