Assessor Comments	Buyers on offer is 120hd Angus and Angus cross weaned steers , weighing 160- 250kgs to ave 197kgs at assessment. Steers present in store to forward store condition and given the access to good quality feed and the right opportunity should do very well. Steers have been drafted to suit the domestic/export feeder orders or taken though for the grass kill bullock market. This is a great opportunity to secure a large run of angus and angus cross steers that are moving forward and should continue to do so. Steers would be ideal to take home put onto grass/crop with a very strong spring coming. For further information please call.
