Assessor Comments	49 Excellent Quality pure Glenavon blood steers July/August drop. These steers have been running on the oats through the winter and are just starting to hit there straps. The vendor usually keeps these steers until feedlot weights. The cattle are highly sought after by all major feedlots. They are well bred and come with our highest recommendation. Please note odd steer noticed with wart and old ring worm scaring and 2 steers have scarring in one eye that was not considered detrimental one steer had white just at and behind the navel
