Assessor Comments	252 (6 decks) of VGQ No.5 Droughtmaster Heifers. At assessment these heifers weighed from 200-394kg to ave. 254kg. The heifers have good weight, bone and frame for age and will grow out well to be future breeders or for the domestic feedlot trade. The heifers are mostly polled and have plenty of genetics behind them to be future breeders. The Malboona herd is based on Glenlands Genetics. There is the odd heifers with a white underline, however large majority are straight red in colour. Heifers have been weaned over last couple of weeks with the last into the yards on Monday. Have been worked through the yards several times. Vendor also has another 6 decks of steers in same sale.
