	Exceptional cattle to handle throughout the yards and crush with all walking on and off without any fuss or urgency at all. It is a credit that weaners still on the cows could be so calm and easy to manage. Some of the heifers are a little anxious whilst on the scales yet not aggressive or flighty at all. When taking photos they are inquisitive and calm - the cows were just outside in a cooler yet the calves showed little anxiety or silliness that weaners can show. Very placid cattle.

Assessor Comments	The "Loongana" cattle are very well respected and known for quality, performance and temperament. Sires purchased in recent years have been generally in the lead of most sale catalogues. Very clean and tidy around the head, fresh condition and showing great bone, length & depth. 1 light creamy & 1 Brown Brahman Santa x flatback heifer. Buyers are expected to take into consideration the cattle will be weaned onto the truck and consider any additional adjustments or allowances for perceived shrinkage due to weaning and transport during or after arrival. They have had minimal handling to date however have a natural quiet disposition. They have been on excellent feed this season and the cows are in outstanding condition with such big weaners still following. They will remain on the cows until delivery & will be weaned onto the truck.
