	Cattle are well educated through the yards with a big emphasis on quiet stock handling. Mickey's have been run through the draft & race a number of times prior to assessment.	
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Vehicles	
Assessor Comments	A line of 60 soft even Santa & Santa Cross Weaned Bulls that are PCAS Eligible and present with plenty of compensatory gain. Mickey's are best described as medium to large frame and present in strong store to forward store condition. This line of cattle show good frame, length and bone and are known to perform on feed, growing out to good heavy kill weights. Mickey's were very very quiet to handle in the yards with the vendor spending lots of time handling them. At assessment 1 x weaner was treated for a weeping eye with terramycin spray and will be monitored until delivery. 1 x weaner was seen with ring worm around the head. Buyers please note that these cattle have been fully weaned with most in hand for up to 3-4 weeks. 2 x family marks.
