Heifers temperament was very good at assessment. Both myself and the vendor worked them with no noise and calmly, and the heifers reacted very well. See video for temperament.

Assessor Comments	On offer is a neat line of Mundarlo & Arden blood Angus heifers that are NSM, well weaned and are 12 months of age. These cattle have come through a very tough winter but have improved on good quality pastures and are on the do. Heifers were nice and quiet whilst assessing. They were weighed between 252-341kgs LW and present evenly with a small tail removed. Heifers would be suitable as future breeders or to take on as grass fatteners.
