Assessor Comments	A Quality line of future breeders bred from a top herd. The herd is based out of Milwillah/Gilmandyke & KO genetics. Vendor selects for growth & marbling they show good length, depth & thickness. The heifers would be a great add on to any herd or a great line to start the transition into cattle. These heifers have come through a tough winter and are now on the do. Heifers have averaged 1.5kg a day for the last 14 days. A number of heifers were noticed to be jumping on one and other which suggests they are cycling.
