Assessor Comments	A very even line of August/ September '24 drop Dunoon, The Rock & Milong Angus blood heifers that would suit to join or grow out to feeder or kill weights. These heifers weighed between 266-251kg to average 306kg full at assessment with the tail end removed. They are just starting to hit their straps and clean up in the coat after coming through a tough Autumn and winter. They are Greenham Never Ever accredited, no antibiotics and grassfed only. Please note; these steers are located just off the Hume highway for ease of trucking. Vendor also has a line of steers in this sale.
