Assessor Comments: Due to a change of operation, the Daunt family are offering their lead draft of Hereford Heifers. This 'pick of the crop' line of Heifers show good pigmentation, long smooth bodies and hooded eyes; very true to type Hereford features. Bloodlines of the Heifers are fan favourites - Injemira and Glen Poll Hereford bloodlines. When selecting bulls, the vendor focuses on temperament, feet, depth and length of the body. These Heifers would be ideal to target multiple avenues such as the trade, feedlot or export markets or to add to a breeding program and join to a bull of your choice. This is a fantastic opportunity to purchase a lead draft of well bred Hereford Heifers. Please note that heifers were drenched with Cydectin Long Lasting Injection on the 19th August (56 day WHP) making them still in a withhold.
