5 Head	White near udder

Assessor Comments 25 VERY QUIET, extremely well bred Angus heifers - These heifers are a must if your looking to top up your breeding herd. A well proven mix of Rennylea / Millah Murrah / Llandarlo genetics running though them. A portion of these heifers are by AI - sire Rennylea L508 - we can identify these if needed. These Heifers have the breeding behind them to perform well as breeders or grow out to heavier feeders. Showing good muscle, length, depth and extremely quiet to handle in every way. They have been 100% grass fed, had all their treatments and are at a perfect joining weight ready for the bull of your choice. Heifers weigh 315kg - 425kg to AVE 374kg full at assessment. NOTE - 1 heifer has old scarring in both eyes and can be removed from the line if purchaser requests. Please refer to photos. 3 heifers have old warts on their heads.
