Assessor Comments	Schiavello Pty Ltd are offering a tremendous line of potential future breeders for the right program whether it be join & trade situation or retain into an already successful Angus breeding herd. These females represent the top draft of their surplus maiden heifers after having an approximate tail of 10% being removed prior to assessment. I believe there is a large amount of potential for these females within a short period of time, displaying reasonable frame with minimal condition. It has been evident since receiving their last P/On drench they have excelled forward with the current Spring like conditions. Please note there is a sale at Yea Saleyards on the same day if you're looking to put a load together.
