Cattle displayed excellent temperament during assessment. All steers flowed through the yards smoothly with minimal disturbance. The odd steer tried to turn in the race but other then that they are quiet and easy to handle making them suitable to all experience levels.

| Assessor Comments | A top-quality line of 5–6-month-old Angus x Friesian cross steers, currently on a grain-fed diet and exhibiting outstanding weight-for-age growth. These steers feature the desirable carcass traits of Angus genetics, with excellent body development and potential. With a calm temperament and significant growth potential, they are ideal for ongoing feeding programs aimed at domestic or export markets. The vendor also offers a line of heifers in sale. |
