When moving from the paddock to the yards they were content and grazed the sides of the road. Got a little quick on their feet when realizing they were corned in the yards. Walked up the race to the scales without any push but got a little eager to get of the scales once trapped in there.

Assessor Comments: Well bred Heifers that have plenty of frame and stretch to grow into ideal future Breeders. Noted performers in backgrounding and feedlot operations with a tonne of breeding. These heifers are grass fed only and antibiotic free for any

	producer wishing to target that market. A small percentage of the cattle are showing ringworm but not detrimental. Five heifers have got a little bit of white around the teat and inside back leg area.
