	When moving from the paddock to the yards they were content and grazed the sides of the road. Got a little quick on their feet when realizing they were corned in the yards. Walked up the race to the scales without any push but got a little eager to get of the scales once trapped in there.		Temperament not assessed in Paddock
Assessor Comments	Well bred Heifers that have plenty of frame and stretch to grow into ideal future Breeders. Noted performers in backgrounding and feedlot operations with a tonne of breeding. These heifers are grass fed only and antibiotic free for any		

producer wishing to target that market. A small percentage of the cattle are showing ringworm but not detrimental. Five heifers have got a little bit of white around the teat and inside back leg area.
