Very well mannered young heifers that handled well and were respectful of the handler and their surrounds, a pleasure to work

Handled With: Bikes , On foot , Vehicles

Assessor Comments: A line of quality young females that are very well bred and true to type, moderate frame with depth and bone with adequate maturity for age. These heifers are the run of the lead weight range of the vendors heifers that were pregnancy tested undetectable. Reluctantly these young females are offered as they would normally be in calf and go on to be future breeders, unfortunately seasonal conditions pre/during joining stifled conception. Note : The line of 84 Heifers included - 1 Heifer with a white belly through to brisket, 9 Heifers with some white on their belly and 10 Heifers with white udders or white in the flank (breed acceptable). #There were a few heifers with old pinkeye scar that was well faded and a couple with an odd wart (nothing detrimental to the health of the animal)
