Vendor Comments	A very good line of quiet backgrounder type steers being sold as part of vendors annual turnoff. Steers are vendor bred, very quiet to handle and have a great performance record on grass or in the feedlot.

	Steers were good to handle in the yards, they worked well through the draft and crush/scales showed no signs of aggression but an odd steer stirred up slightly when placed under pressure or away from its mates. Overall very good to handle.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles							
Assessor Comments	A good line of vendor bred 1 brand steers, these steers have a very good reputation for performance on both grass and in feedlots, being bred on lighter spinifex type country they always return excellent weight gains on better feed. Buyers can purchase these steers with complete confidence that they will do very well for them going forward, the vendor normally carries these steers through to heavy feeder weights but has decided to lighten off some paddocks to allow room for this years steers coming through. They were bred in tick free country, are currently located on the tick line so vendor has pre treated steers to clear and will guarantee clearance on property.
