Handled With	Very good to handle in and around the yards - the cattle are of a placid nature with very minimal disruption or fuss when weighing, quiet to walk among when taking photos with a normal flight zone. Bikes , On foot , Vehicles		
Notable Traits	Traits 4 Head Light blue eye 1 Head Small lump under jaw		
Assessor Comments	Very good quality Angus steers purchased from the Tumut, Adelong & Gundagai area of Southern NSW. Top Angus breeding country. On agistment at Marchmont since mid May. They are cattle that have performed since day 1 of arrival and continue to impress with a noted weight gain of .83kg/day in the last 34 days on feed that has well matured in our normal seasonal lul period. 1 with small white markings on his face (actually 343kg), 1 blue roan steer (actually 339kg) and 1 ever so slight Angus cross steer (348kg) otherwise the balance described as true Angus for all breed attributes and content. The 3 odd steers - B/Bly , Blue roan & cross steer are heavier than the assessed heaviest however put in at the 327kg cut off to compensate for not being pure Angus. No current active pinkeye however there are 4 with old / very minor slight blue scaring.
