Temperament	Yards Quiet: 21 head Slightly Stirry: 5 head	Crush Quiet: 21 head Slightly Stirry: 4 head Stirry: 1 head	Paddock Temperament not assessed in Paddock
Handled With	Bikes They were mostly good to handle in the yards, race and crush. Four were slightly stirry when isolated in the crush but settled once back in the yards. One steer was quite agitated in the crush and exited quickly. All settled once back with the herd and remained settled when being photographed. Not all but some tended to move quickly through gates when being moved (see video). Noting aggressive was observed they just need to be worked calmly and with consideration.		
Assessor Comments	A line of vendor bred Angus x yearling steers. Assessed as 4% fair, 27% good and 69% very good quality, these medium and large frame steers suit to take through to heavy export feeder weights. They were yard weaned in June before moving onto oats. The oats is now dry but with good bulk and they continue to move ahead. They have not had access to grain and are grass market eligible. Five steers noted with slight blue eye spot in one eye while three steers have a small amount of warts on the face and neck. Two steers noted with healing ring worm marks in face and neck. Located approximately 130km West of Goondiwindi off the Barwon Hwy. Please note 3 decks of Angus x steers to make a road train and 2 decks of PTE heifers also in this sale.
