The vendor has spent an amazing amount of time handling these cattle and they are extremely quiet to handle. However, cattle can react differently after trucking and in a strange environment.

Assessor Comments	A very nice line of young Angus and Angus cross steers. The majority are black-coated with only 1 head being Charolais cross and 1 red-coated. Steers would fit into most Angus Cross branded feeder programs. These cattle were an absolute pleasure to handle throughout the assessment and drafting process. Steers would suit to finish for either the heavy Domestic or Export markets. Over the last 28 days steers have been gaining 1.5kg/day. This is the complete drop with 5 Lighter Steers removed at assessment. Top quality calves exhibiting tremendous growth for their age, with plenty of shape.
