	Steers flowed very well through the yards and into the race and crush. Once in the crush the odd steers became agitated due to portable weigh platform and noisy portable yards. Then once let into a bigger yard for photos the steers became very placid and quiet.

Assessor Comments	A very nice line of 54 feeder steers in forward store condition, purchased out of Northern Victoria and Southern NSW. These steers are performing exceptionally well. All steers are true-to-type, pure Southern-bred Angus cattle. They exhibit excellent frame and stretch, with the potential to grow out into quality bullocks. These steers still have plenty of growth			

ahead and are well-suited for either domestic or export feeding programs.
