| Handled With                          | Steers were good to handle & draft. Steers are accustom to being handled, this is evident through their temperament.<br>Aerial (Helicopters, gyro's and planes) , Bikes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                           |                                     |
| Assessor Comments                     | On offer are 52 soft crossbred feeder steers averaging 427kg live at assessment. They ranged from 380 - 482kg in store condition with plenty of frame & potential for weight gain. They are bred from a composite cow base sired by predominately Angus bulls. They are soft, hairy steers with plenty of shape & muscle. They are educated, being good to handle/draft & have had plenty of time spent tailing out. Steers are performing on a dried crop and would thrive in a feedlot environment or would grow into massive grass bullocks given the opportunity. These are renowned good doing cattle with plenty of performance being so quiet and educated. Buy with confidence. |                                           |                                     |
