Assessor Comments	Buyers presented to the market is 21 Angus & Angus cross heifers. These heifers were very easy to handle throughout the assessment. Heifers are really responding to the spring conditions and are moving forward averaging just over 300kgs at assessment. Heifers have been yard weaned and were recently drenched with Iverlab pour on leaving all the hard work done for the prospective buyer. An opportunity not to be missed to secure yourself 21 heifers to either grow out into feeder/ Export weights or to join into your breeding program as future breeders with there whole lives ahead of them.
