Assessor Comments	A very good quality line of NSM future breeder angus heifers. This line represents the No.2 heifers in the Snodgrass family's replacement females. Heifers are well grown and carry an excellent temperament. They are bred from genuine large frame productive females and will continue to mature the same way if given the opportunity. They present evenly as a group and stand in predominately fresh slightly forward condition. Progeny of this herd are noted performers and highly regarded amongst previous purchasers. Heifers are currently performing very well and in ideal joining condition if required. Heifers will be offered in two lots and will be delivered via a drafting gate to ensure evenness at delivery if required. Please call for further information.
