Assessor Comments	With the unpredictability of the season, the vendors have decided to offer their lead draft of 9 Angus Charolais Cross heifers. Heifers are a Feb/April drop, have recently been weaned and are thriving on improved pastures and pasture silage, averaging 298kgs at assessment with a 5 hour curfew. The vendors main focus is breeding stock with great structure, feet and quick growth rate with these heifers being a prime example of all. With time, they will make a fantastic asset to a breeding program or to hit other target markets. A tail has been removed ensuring a genuine lead draft. Please note vendor has another 16 steers in the same sale.
