	Steers were very good to handle in the yards, they worked well through the yards and crush. There were no signs of aggression from any of the steers although the odd one stirred up when put under pressure in the crush. Steers were very good to handle and inspect in the paddock prior to assessment in the yards.

Assessor Comments	A very good line of 154 Angus backgrounder steers. 100% Milk Tooth, these steers were purchased in NSW mid April and have done very well growing out on mitchell grass downs country at Muttaborra. They are very quiet to handle and will suit feedlot backgrounders. Please Note: Approx 5 steers have a mild blue eye, and 6 steers have old rub marks on muzzle, 1 steer blind in nearside eye.
