Assessor Comments	Offering 124 crossbred steers weighing 209kg after an overnight curfew. These cattle are all frame no weight coming from lighter country north of Jericho. Would suit a buyer looking to put away and trade as backgrounders or grow out further with a good quality feed to add the kilos. These weaners are exceptionally quiet with a huge emphasis on low stress stock handling, credit to the vendors. Have come from a mixed crossbred herd which was built with survivability in mind and the ability to grow well once in higher quality country. HGP Free & Antibiotic Free. Note: approx. 10% would be late #4 being the heavier weight range, with majority to be #5. Majority being in within 100kg weight spread.
