Assessor Comments	Here is a great opportunity to purchase two decks of Angus x Angus heifers. In the last 27 days since last weighed they have put on an average of an incredible 45kg to average 1.6kg a day. Spring has sprung, these heifers are on some sweeter native country with plenty of clover. At assessment these heifers weighed 302 - 408kg FULL to average 346kg. These heifers would suit multiple options - background for feedlot entry, target MSA domestic kill, join to the bull of your choice for a PTIC trade or simply looking to increase your breeding numbers. These heifers have all be purchased locally through A+ allowing the vendor to be selective on their purchases. All these heifers received a backline on induction. They were easy to move through the yards. Please note the vendor also has 6 Angus x Hereford heifers in the same sale. Vendor is open to have a separate discussion re freight possibilities as they have a 30ft unit.
