We have spent a lot of time handling these cattle in the paddock pre and post-weaning and they are extremely quiet to handle.

Not Station Mated

To vendor's best knowledge, this lot has had no access to bulls or stags.

	The vendor has spent an amazing amount of time handling these cattle and they are extremely quiet to handle. However, cattle can react differently after trucking and in a strange environment.

Assessor Comments	A very nice line of young Angus and Angus cross heifers. The majority are black-coated with only 3 head being Charolais cross and 2 red-coated. Heifers would fit into most Angus cross branded feeder programs. These cattle were an absolute pleasure to handle throughout the assessment and drafting process. Heifers would suit to finish for either the Domestic or Export markets. Over the last 28 days heifers have been gaining 1.2kg/day. This is the complete drop with 4 Lighter heifers removed at assessment. Top quality calves. The vendor is also offering the steer portion in this sale. Heifers if required, will be Prenancy Tested prior to delivery.
