Vendor Comments

We have spent a lot of time handling these cattle in the paddock pre and post-weaning and they are extremely quiet to handle.

Temperament	Yards	Crush	Paddock

Handled With	The vendor has spent an amazing amount of time handling these cattle and they are extremely quiet to handle. However, cattle can react differently after trucking and in a strange environment. Bikes , On foot , Vehicles
Assessor Comments	A very nice line of young Angus and Angus cross steers. The majority are black-coated with only 1 head being Charolais cross and 1 red-coated. Steers would fit into most Angus Cross branded feeder programs. These cattle were an absolute pleasure to handle throughout the assessment and drafting process. Steers would suit to finish for either the heavy Domestic or Export markets. Over the last 28 days steers have been gaining 1.5kg/day. This is the complete drop with 5 Lighter Steers removed at assessment. Top quality calves. Vendor is also offering the heifer portion in this sale.
