Assessor Comments	49 Unjoined Angus Heifers A very well-balanced and even line of Angus heifers showing a tight weight range and the quality and type to suit any breeding or finishing operation. The cattle are quiet and display a kind, soft eye, handling calmly through the yards. The vendor purchased this line from SBC Farms as a one-mark draft at the Ballarat Feature Weaner Sale in February. This lot represents the second draft from a total of 103 heifers being presented by the same vendor. All heifers have received the full range of recommended health treatments. A small number show old pink-eye scars, none of which are active. The heifers are grass-fed and antibiotic-free, offering a genuine opportunity to secure an even, quiet line of quality Angus females with strong breeding potential.
