Assessor Comments	Cairnbrae Angus present a well-bred line of 3 head of Angus heifers showing quality, softness, and balance. Bred for fertility, structure, and performance, these heifers form an even, tidy group ready to join. Sired by bulls from Texas and Millah Murrah, they carry genetics renowned for calving ease, growth, and carcase quality. Their dams originate from leading studs Texas and Stoney Point, providing a strong maternal base and functional, durable genetics. Well-grown with length, depth, and strong toplines, these heifers display structural correctness, tidy underlines, and doing ability. They are forward-store ready and suited to immediate joining, making them a genuine line of young Angus females that would complement stud or top-end commercial herds while delivering proven bloodlines and long-term herd performance. Vendor is offering 2 other lots
