Assessor Comments	A good line of Angus weaner steers, based on the well-regarded Eagle Hawk bloodlines. The calves are sired by bulls from Farrah and Eastern Plains bloodlines, offering reliable and proven genetics. . Some steers are showing mild signs of ring worm, which is manageable. ten steers have old pink eye scarring in one eye, though it does not affect their eyesight or performance in any way. Ten steers have white underbelly not in front of pizzel. These are ideal steers to take home and , grow out onto feeders, or fatten for future production. A sound, functional line ready to go ahead.
