Notable Traits

Traits

1 Head V71 - Pink eye scar (mild) - photo attached

Assessor Comments

An outstanding line of well bred Angus heifers, sired by elite Tattykeel Angus bulls and backed by generations of highly productive cow lines. These heifers are bred out of moderate, thick, deep bodied dams carrying Rennyalea, Stoney Point, and Coolana Park blood, ensuring proven maternal performance. At assessment, the heifers weighed 319–413kg, averaging 376.3kg. These heifers currently have an ADG of 1.8kgs/day, calculated between 16.09.25 - 24.10.25. The steer portion this year selling to Wyalla Beef, Texas QLD, and previous years supplying Teys Feedlots with excellent feedback, buyers can purchase with confidence. These heifers show the depth of breeding to grow into exceptional breeders, with the structure, body type, and genetics to perform in a variety of operations. One heifer (V71) noted with minor pink eye scarring. Only being sold due to seasonal conditions, these heifers come with our highest recommendation.
