HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

Chemical Residue

Nil known to vendor.

Vendor Comments	Annual draft of surplus heifers, the tail & plain types have been drafted out to fatten over summer.					
Joining Details	Not Station Mated					
Other Joining Details	Metford run a controlled joining program, so by rights these heifers would've been too young to conceive whilst bulls where in the herds.					
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.					
	Quality Grades		Store Condition		Muscle Score	
	Good	70%	Store	100%	C	100%
	Fair	20%				
	Plain	10%				
Temperament	Yards		Crush		Paddock	
	Quiet: 120 head		Quiet: 110 head Slightly Stirry: 8 head Stirry: 2 head		Temperament not assessed in Paddock	
	These heifers flowed through gateways, pound & race very well. Any that did stir up in the weigh box settled quickly once back in the yard with other cattle. Well handled heifers ready to be paddocked and forgotten about for 6 months!					
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs					
Notable Traits	Traits 1 Head Small warts under eye					
Assessor Comments	Buyers here's a full B-Double load of weaned store condition vendor bred great quality heifers that will excell on grass country. These 'Metford cattle' are proven performers on grass & crop situations. And will grow out to heavy weights given the right start, they have been bred in mulga country & had access to breeder lick so are healthy in the gut. Given this vendor control joins allows us to be sure there's no older types amongst this line or should there be any pregnancies. These heifers have a great amount of frame and breeding in them and as such look a great opportunity to buy supermarket suitable backgrounders. I highly recommend this consignment of Backgrounder heifers.					
Assessor	Brock Simpkins (Level 1 Accredited)					
Delivery Period	18/10/2025 to 22/10/2025 (5 days)
