Assessor Comments	A quality run of unjoined, future breeder or feeder heifer present to you. These heifers were all bred by the well known 'Mungalla' Droughtmaster stud at Taroom and were purchased in May 25. Due to a change in direction the vendor has decided to offer the heifers for sale again. The mob have all been pregnancy tested by a vet as empty/undetectable and to the vendor best knowledge have had no access to bulls in the last 6 week. The heifers present in lighter condition but are showing plenty of frame and potential to grow into a quality line of breeders. The heifers were a pleasure to handle through the yards and handled very well in the paddock. Please note that one heifer has an old broken tail and two heifers are showing slight scaring from old fly bites. Don't miss an opportunity to purchase a well-bred, quiet line of future breeders.
