Assessor Comments	An absolute cracking line of steers with a great temperament, with weight for age statistics second to none. These steers would suit any feeder market as a straight black, woolies or coles steer or would be ideal to put back into the paddock to background. The vendor is renowned in the Scenic Rim area for having outstanding cattle with first class genetics and quiet temperaments. This is a unique opportunity to buy these weaners as they are generally grown out and sold to feedlots for a straight angus order. With all health treatments and great handling already applied to these cattle this is an opportunity not to be missed. The vendor has pre treated these steers twice for ease of movement into clean country.
