Assessor Comments	A very well-presented line of vendor bred, grass-fed & antibiotic free yearling Steers. These cattle have come through a very long wet winter and are absolutely powering ahead now. They stand on great bone and are showing wonderful carcase traits. These steers would normally be grass fattened for either the high-end domestic trade or taken to a heavy export market. These steers are ideal to take onto either of those or to be set for the fed pen. The genetics behind these cattle is well thought out and it shows with these steers.
