	These Steers have a tendency to run when first put in the yards. A few did not settle and were a bit stirry first up, more trying to get away from you. After assessing they settled quickly once back with the mob.To be fair we ran them in and started the assessing process straight away. They are Steers that are easier to handle if left to settle first. The odd one					

Handled With	played up in the crush , nothing unusual there. Overall Steers that are easy handled by experienced operators. Bikes , Vehicles
Assessor Comments	A tidy line of 54 x 54 well bred Millah Murrah blood Steers, The steers will be sold run out the gate, Steers that are going forward and are the ideal weight to finish on grain or grass.As you can see by the videos they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through.This is the lead of 300 steers. A few have a skin reaction around the eyes from the hay feeders (see photos). There is another lot of Heifers from this breeder also in this sale. Inspections prior to sale welcome.
