A few of these cattle have had ringworm and are still showing signs of it still. They all appear to be getting over it with the hair starting to grow back. *There is also a line of the seconds (Steers) and two lines of heifers available in this same market. **Please note there is the odd white belly and a couple of baldy types in this line, one with small scurs/small horns can be removed also a couple of shinny type coats.
