Handled With	Heifers came through the yards well and the majority stood in crush to get assessed. A small number of females were restless in crush but settled quickly when with the other heifers. Heifers were not assessed in paddock. Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	On offer is a good quality 2 deck line of vendor bred Angus/Santa cross females. These heifers have good frame, well fleshed and sound structure. They handled well through the yards and are suitable for trading or breeding. Young heifers that are being sold at a time to give the purchaser many options. Located south of the tick line they were given a 5in1 & a botulism at weaning and 3 head have a lump from this procedure. Vendor has another line of 4 decks #4Santa heifers in same sale.
