	Quiet: 22 head Slightly Stirry: 2 head Quiet: 20 head Slightly Stirry: 4 head Temperament not assessed in Paddock Cattle were great to handle moving freely through the yards. They loaded easily into the force, race and crush. A small % were nervous while mouthing, while on the scale platform or when pressured. The steers relaxed quickly once the pressure released. Please view photos and videos.
Handled With	Bikes , Horses
Assessor Comments	A quality line of EU Angus and Angus cross yearling steers. Ideal feeders for the top end domestic market. Alternatively, grow on to export feeders or finish to quality bullocks. Showing good bone and growth for age. Cattle are fresh in the coat, having been on oats for approx 11 weeks and are steaming forward. All sired by angus bulls, with approx 17 showing angus/angus traits with the balance being angus with some santa influence. Pls refer to breed notes. Note there is 1 steer with some white on the face and 1 with some white on the underside. The steers were great to handle through the process with a small % nervous in the crush while weighing but fine in the mob. Please view photos and videos.
