Assessor Comments	A line of predominately Angus steers with the balance being Angus x. The steers will suit trade or heavy feeder markets, they could also be grown out for an export grass program. Of the steers handled there was 18 head over 300Kg after curfew. There were 2 steers showing slight male characteristics however definitely not bulls. These characteristics are likely to dissipate as they mature, of which 1 was banded & has recently detached. There were 3 steers showing signs of lice, all steers are losing their Winter coat. The vendor has 12 heifers same sale.
