| Assessor Comments                     | A good line of Angus x Angus weaned heifers. Out of moderate to large framed Angus cows, by Figtree Park and Ithica blood bulls. A neat line of heifers that could be turned out onto fresh crop and make a quality feeder weight, grown to a kill carcass, or held for future breeders. These heifers have been yard weaned in April, with DDG nuts and Oaten hay making them a good prospect for the feeder job. Temperament was a standout at the time of assessment as weaners flowed well through the yards. NOTE: Vendor has multiple lots in sale. Vendor is willing to transport to the Glen Innes Saleyards for a B-double loading only. |                |                |
