Assessor Comments	Buyers, a line of 15 vendor bred crossbred yearling heifers presenting in forward store condition that had a LWT range at assessment of 294-344kg full to average 297.7kg after a -5% curfew. Heifers would be ideal to continue to background on crop as they are really starting to do now. Heifers could be retained as breeders also. Please note; Drench and vaccination dates vary depending on when heifers were brought home from agistment paddock. Same vendor has brother lot in this sale. Management tags were removed after photos and videos.
