Assessor Comments

Buyers here is a great opportunity to secure a light two decks of backgrounder Angus X Angus heifers that have weighed 270 - 377kg to average 323kg FULL. These heifers were purchased in May 2025 at the Wodonga Weaner sales. All top quality genetics seen in the south. These heifers are hitting their straps. It has been a cold wet winter in Rocky Creek and these cattle will continue to stack the kilos on while on a rising plane of nutrition. These heifers would also suit if a buyer was looking to increase their breeding numbers or wanting to join to a bull of their choice for a PTIC trade in the new year based on their quality.
