Assessor Comments	A Commercial line of one brand, vendor bred, ready to join or feedlot entry. The vendor has a strict selection process when choosing sires and retaining females. Selecting sires with correct IMF traits has been a must, to ensure marbling in future offspring, heifers have been growing out significantly well on oats crop. Please note some heifers show slight navel, appears to be genetic throw back from stud angus bulls used in the past on the maternal side. Don't miss the opportunity to purchases the lead draft out of the entire 2024 drop, no heifers have been retained. Buy with confidences.
